ENVIRONMENTAL POLICY

GMC is committed to environmental protection and the principles of sustainable development. Each employee has an important role to play and all employees are empowered to take initiatives to protect and enhance the environment.

We incorporate sound environmental practices in all of our business activities, guided by the following principles.

GMC will:

- Comply with applicable legislation and industry standards in conducting our activities. Incorporate effective operational procedures to monitor, assess and mitigate negative environmental impacts.
- Act as responsible stewards of the environment in which we carry out our activities.
- Continually evaluate and improve the quality of our products and services to ensure that timely and effective environmental protection measures are developed and maintained.
- Implement training and incorporate process designs and technology that will improve environmental standards and the understanding of environmental issues,
- Provide our clients with innovative, cost effective alternatives incorporating environmentally responsible principles.
- Respond promptly and effectively to emergencies to protect our employees, public and the environment.
- Use resources efficiently and dispose of wastes responsibly.

These guiding principles apply to all employees Stakeholders clients and subcontractors of GMC. We will maintain communications throughout all levels of the company to ensure compliance with this policy and awareness of its positive influence on all of our activities.
